Policy Exchange
10 Storey's Gate
Westminster
London
SW1P 3AY

“Microsoft is delighted to have Policy Exchange as a partner. They are at the cutting edge of the policy debate in the UK.”

Matt Lambert,
Director of Corporate Affairs,
Microsoft Ltd.

Corporate Engagement

Policy Exchange appreciates the intellectual and practical input business can make to the wider policy debate. There are three main ways for businesses to partner with Policy Exchange;

- The Business Forum
- Research Projects
- Events

The Policy Exchange Business Forum, launched in 2003, aims to create a hub for innovative thinking on key areas of social and economic policy. The Forum allows participants to comment on key policy areas, contribute ideas and give advice to Policy Exchange's research programme. The Forum enables companies to engage in the policymaking process and brings a host of other benefits including monthly special meetings, receptions, research updates, access to heads of research units, a weekly bulletin for supporters with the Director's thoughts on current Westminster activity, copies of all our reports and sponsorship opportunities.

We also encourage corporate partnership on events and reports but do not take research commissions.

If you would like more information about working with Policy Exchange, or the benefits of joining the Business Forum, please contact [Jacqueline Riozzi](#), Head of Business Development.
