Subject: Service agreement for SONE

Keith

We spoke about the process for arranging payment relating to SONE. Could you email me with the following words, so I can start off the process internally? Thanks.

I'll write to you separately with the guarantee/assurance on no continuing liability for yourselves.

Regards

Dorothy

I confirm that the NIA will provide services relating to support for nuclear energy, specifically for activities to be carried out by SONE. The cost of this activity for 2004/5 is £21k, to be paid immediately in one annual instalment. We will provide you with service entry details for this, which you can then quote on your invoice to us.
