Dear Robbie

I tried to phone you earlier but you were away. What it's about is that a couple of weeks ago Tony Cooper and I met Philip and Ipek to go through NIA's forward communications and public affairs plans. One of the items we discussed was improved co-operation between NIA and the industry's trade union organisations, and closer co-ordination and understanding of messages and activities. We are fairly close to TUSNE and are talking to them about forging stronger links with NIA. However, Tony and I would like the opportunity to talk to the officials of Nuclear 21 - who we know less well - to explain what NIA's strategy is, and explore whether there could be closer communication between us so that the industry and its advocates are giving consistent messages. Philip agreed this was a good idea and suggested we contact you to arrange a meeting up at Sellafield.

Could we discuss?

Best regards

Keith
