Subject: Re: Online vote on nuclear - which we're losing at the moment....

a vote appears to shift the poll by 0.1% suggesting about 1000 vote cast. tho not necessarily 1000 voters...

There is said to be an associated on-line poll which we are losing but I
can't find it !

"It's not ideal that their on-line poll stands at 81% against the motion
(doesn't say how many votes cast)"
